

THE APICIL GROUP PROTECTS YOUR PERSONAL DATA

The laws on the protection of personal data and privacy must evolve to adapt to the proliferation of new technologies and related abuses. To adapt to the digital challenges and ensure better control of personal data, a new data protection regulation (GRDP) entered into force on **25 May 2018** at the European level. **It is intended to:**

- Harmonise the regulations by providing a single legal framework for all European citizens ;
- Reinforce and stipulate peoples' rights ;
- Hold all organisations that process data accountable.

The processing of data, sometimes of a sensitive nature, and respect for your private life have always been at the heart of our profession and a priority for us.

Data protection is a major commitment for us and we implement every possible measure to protect your information in line with the international norm ISO27001.

**AS SUCH, THE APICIL GROUP IS
